

The image displays a highly detailed and complex grid-based diagram, likely a technical drawing or a data visualization. The grid is composed of numerous small squares, many of which are colored in various shades of gray, black, and white. The diagram features a dense network of lines and patterns, suggesting a complex structure or a highly detailed map. The overall appearance is that of a technical drawing or a data visualization, possibly representing a large-scale system or a complex network.

The Gantt chart displays the project schedule for the 'Construction of the new building' project. The chart is divided into several main sections: 'Preparation', 'Construction', 'Commissioning', and 'Handover'. Each section contains numerous tasks with their respective start and end dates, represented by horizontal bars. The chart is color-coded by task type: yellow for preparation, green for construction, blue for commissioning, and red for handover. A legend at the bottom left identifies the colors and task types.
